## Here's How It's Done : Directions

### **Total Recipe Amounts:**

454 grams of Whipped Soap Base

250 grams of Powdered Sugar

35 grams of Almond Fragrance Oil

2 grams of Rose Clay Powder

5 grams of Sweet Almond Oil

Clean and sanitize your workstation and all of your packaging materials and utensils. It is suggested that you wear gloves, an apron, gloves, a face mask, and a hair net while preparing this recipe.

**Step 1:** First, weigh out 454 grams of the Whipped Soap Base and add it to your mixing bowl. Then, set this aside.

**Step 2:** In the second mixing bowl, weigh out 250 grams of the powdered sugar.

**Step 3:** In a separate bowl, you will mix the colorant. Add 2 grams of the Rose Clay Powder and 5 grams of the sweet almond oil to a small bowl. Mix these together until the consistency is smooth and free of clumps.

**Step 4:** Next, use your hand held mixer to whip the soap base. You will notice that the base will start to look like whipped frosting.

**Step 5:** Once your soap base looks like whipped frosting, add the powdered sugar to the whipped soap base. You will use a spatula to fold the powdered sugar into the soap base. You will need to thoroughly mix until it is fully blended.

**Step 6:** Next, you are going to add the colorant. So, use your spatula to fold in the rose clay powder and sweet almond oil mixture.

**Step 7:** Then, add 35 grams of the Almond Fragrance Oil to your mixture. Again, use the spatula to fold the ingredient into the mixture. Make sure that you clean the sides of the bowl with your spatula.

**Step 8:** Now, start to whip the soap base mixture with the hand held mixer. Mix your ingredients together until it begins to look like whipped frosting again.

## Here's How It's Done : Directions

**Step 9:** Finally, you are going to use a spoon to scoop the whipped body frosting into your clear PET jars.

Your whipped body frosting is now ready to use!
