

Almond Scoopable Wax Recipe

Recipe makes approximately 4 - 8 ounce jars.

Here's What You Need:
Ingredients

[Joy Wax](#)

[Pillar of Bliss Wax](#)

[Almond Fragrance Oil](#)

[Sweet Almond Oil](#)

[8 oz Clear PET Jars](#)

[White Smooth Lids 70/400](#)

[Thermometer](#)

[Pink Color Block](#)

[White Color Block](#)

[Red Color Block](#)

[Pouring Pot](#)

Other Ingredients & Equipment You'll Need:

Scale

Pot (for double boiler)

Mixing Spoon

Berries/Cherries Mold (www.flexiblemolds.com)

Here's How It's Done : Directions

Total Recipe Amounts:

- 16 ounces Joy Wax
- 12 ounces Sweet Almond Oil
- 2.88 ounces Almond Fragrance Oil
- 24 grams Pillar of Bliss Wax
- Less than a gram of a White Color Block
- Less than a gram of a Pink Color Block
- Less than a gram of a Red Color Block

Step 1: First, weigh out 12 ounces of the Joy Wax. Melt the wax using a double boiler.

Step 2: Add less than a gram of a pink color block to the melted wax and stir to incorporate.

Step 3: Then, add 2.1 ounces of the Almond Fragrance Oil and 9 ounces of sweet almond oil to the melted wax. Stir to incorporate.

Step 4: As the mixture begins to cool, it will thicken. Continue to stir periodically until the temperature is around 130 degrees Fahrenheit or lower.

Step 5: Once your mixture has cooled, pour the mixture into the 8 ounce jars. Each jar will be filled about 3/4 of the way to the top of the jar. Allow this pink layer to set up before creating the next layer.

Step 6: While you are waiting for this layer to set up, prepare the cherry embeds. So, weigh out 24 grams of Pillar of Bliss Wax and melt the wax using a double boiler.

Step 7: Then, add 2 grams of the Almond Fragrance Oil and less than a gram of the red color block to the melted wax. Stir to incorporate.

Step 8: Once your ingredients are melted and mixed, pour the red scented wax into the cherry embed mold. Allow the cherry wax embeds to set up before removing them from the mold.

Step 9: Now, you can create the second layer. Weigh out 4 ounces of Joy Wax and melt using a double boiler.

Here's How It's Done : Directions

Step 10: Add less than a gram of a white color block to the melted wax and stir to incorporate.

Step 11: Then, add 0.7 ounces of the Almond Fragrance Oil and 3 ounces of sweet almond oil to the melted wax. Stir to incorporate.

Step 12: Again, as the mixture begins to cool, it will thicken. Continue to stir periodically until the temperature is around 130 degrees Fahrenheit or lower.

Step 13: Once your mixture has cooled, pour the mixture into the 8 ounce jars to fill them.

Step 14: Then, place a wax cherry on top of each of the filled 8 ounce jars.

Step 15: Once your wax has completely setup, place a lid on each jar and allow the scoopable wax to cure for at least 48 hours before using.

Your scoopable wax is now ready to use!
