

# Bergamot & Tarragon Hair Conditioner

*Recipe makes approximately 2- 8 oz. bottles.*

Here's What You Need:  
Ingredients

[VEGETABLE GLYCERIN](#)  
[BTMS 25 Emulsifier](#)  
[SWEET ALMOND Oil- 16 oz.](#)  
[Bergamot & Tarragon Leaves Fragrance Oil](#)  
[OPTIPHEN - Preservative](#)  
[VITAMIN E OIL \(Tocopherol T-50\) Natural](#)  
[8 oz. Clear Boston Round Bottles](#)  
[Black Lotion Pumps 24/410](#)  
[Disposable Pipettes](#)  
[THERMOMETER](#)

## Other Ingredients & Equipment You'll Need:

Scale  
Water  
Mixing Bowls  
Mixing Spoons  
Pot

## Here's How It's Done : Directions

### **Total Recipe Weights:**

425 grams Distilled Water  
25 grams Vegetable Glycerin  
25 grams BTMS 25  
20 grams Sweet Almond Oil  
26 grams Bergamot & Tarragon Leaves Fragrance Oil  
5 grams Vitamin E Oil  
5 grams Optiphen

**Phase I:** Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe.

**Phase II: Water Phase-** Heat your distilled water up to at least 180F and hold for 20 minutes to destroy any bacteria. Remove from heat and set aside.

**Phase III: Oil Phase-** In another container heat vegetable glycerin (double boiler method is recommended), BTMS, Vitamin E Oil, and Sweet Almond Oil to around 140 F.

**Phase IV: Mixing Phase-** You want to move quickly, ensuring that your water phase and oil phase mixtures are around 140F. In large bowl combine those ingredients and blend well (stick blender highly recommended). Mixture will turn white in color and begin to emulsify.

**Phase V: Cool Down Phase-** Allow your mixture to cool to around 120F, and add Optiphen preservative and fragrance oil. Mix thoroughly. Allow to cool to room temperature and bottle.
