

## Blackberry Jam MP Soap Recipe

*Recipe makes approximately 3.5 pounds of soap.*

Here's What You Need:  
Ingredients

[SLS Free Melt and Pour Soap](#)  
[Blackberry Jam Fragrance Oil](#)  
[Deep Purple FUN Soap Colorant](#)  
[Black Oxide FUN Soap Colorant](#)  
[Whipped Soap Base](#)  
[Vegetable Glycerin](#)  
[Mitre Box Cutter](#)  
[Mitre Box](#)  
[8 oz Clear Bullet Bottle](#)  
[24/410 White Fine Mist Sprayers](#)

### **Other Ingredients & Equipment You'll Need:**

Cutting Board  
Hand Mixer  
Scale  
Microwave Safe Containers  
Large Knife  
Microwave  
Isopropyl Alcohol (in the bullet bottle)  
Raspberries/Blackberries Mold (flexiblemolds.com)

## Here's How It's Done : Directions

**Step 1: Prepare the First Purple Layer:** Weigh out and melt 16 ounces of the clear melt and pour soap base. Melt the soap in 30 second intervals. Once the soap is in a fluid state, add the 0.5 ounces of Blackberry Jam Fragrance Oil, 25 drops of Deep Purple FUN Soap Colorant, 7 drops of the Black Oxide FUN Soap Colorant. Stir to blend the ingredients.

**Step 2:** Pour the melted soap into the soap mold. Then, spray the soap with the isopropyl alcohol to release any air bubbles in the soap. Allow this layer to setup completely.

**Step 3:** While you are waiting for your first layer to setup, prepare your embeds. These will be used as embeds for the clear layer as well as to top the soap. Weigh out and melt 5.75 ounces of the clear melt and pour soap base. Once melted, add 0.18 ounces of the Blackberry Jam Fragrance Oil. Also, add 12 drops Deep Purple Colorant and 4 drops Black Oxide Colorant. Stir to blend everything together.

**Step 4:** Pour the melted soap into the blackberries mold. Spray them with alcohol and allow them to setup. Then, remove the from the mold. Set 7 aside for the top of the soap. The remaining blackberries will be used in the next step.

**Step 5: Prepare the Second Layer:** Weigh out and melt 12 ounces of the clear melt and pour soap. Add 0.39 ounces of the Blackberry Jam Fragrance Oil. Stir. Spray the first layer with alcohol. Then, pour the clear soap directly on top of the purple layer. Drop the blackberry embed into the clear layer. Spray the clear soap with alcohol to release any air bubbles. Allow the soap to setup.

**Step 6: Prepare the Second Purple Layer:** Once again, weigh out and melt 16 ounces of the clear melt and pour soap base. In 30 second intervals, melt the soap in the microwave. Once the soap is melted, add the 0.5 ounces of Blackberry Jam Fragrance Oil, 25 drops of Deep Purple FUN Soap Colorant, 7 drops of the Black Oxide FUN Soap Colorant. Stir to blend the ingredients.

**Step 7:** Spray your previous clear layer with alcohol. Then, pour your second purple layer on top of the clear layer. Then, once again, spray this layer with alcohol to release air bubbles. Allow this layer to setup before moving on.

## Here's How It's Done : Directions

**Step 8: Prepare the Whipped Soap:** Weigh out 5.3 ounces of the whipped soap. To the base, add 0.34 ounces of Blackberry Jam Fragrance Oil and 0.5 ounces of vegetable glycerin. Then, using a hand mixer, whip the base to a fluffy frosting consistency. Set this aside for the moment.

**Step 9:** Next, in a separate mixing bowl, weigh out 5.3 ounces of the clear melt and pour soap base. Melt the soap in 30 second intervals. Add the melted soap to the bowl containing the whipped soap base.

**Step 10:** Using your hand mixer, whip the soap until you once again have a whipped frosting consistency. Spray your soap loaf with alcohol. Scoop the whipped soap on top of the loaf. Then, place a row of blackberry embeds on top across the loaf.

**Step 11:** Remove the soap from the mold. Then, slice the soap.

Your soap is now ready to use! We hope that you enjoyed making this blackberry soap recipe!
