

## Bubble Bath Salts Recipe

*Recipe makes approximately 5 - 8 ounce jars.*

Here's What You Need:  
Ingredients

[Hawaiian Black Salt Coarse Ground](#)

[Epsom Salt](#)

[Sodium Lauryl Sulfoacetate \(SLSA\)](#)

[Mica- DIAMOND DUST Pigment 1 oz](#)

[NG Blue Hydrangea Type Fragrance Oil](#)

[Da BOMB Soap Dye- Red 1oz.](#)

[Da BOMB Soap Dye- Blue 1 oz.](#)

[FUN Soap Colorant- Ultramarine Violet 1oz.](#)

[8 oz. Clear PET JAR](#)

[White Straight Smooth Lid 70/400](#)

### **Other Ingredients & Equipment You'll Need:**

Mixing Bowls

Mixing Spoons

Scale

## Here's How It's Done : Directions

### Total Recipe Amounts for Epsom Salt Portion:

840 grams Epsom Salt  
84 grams SLSA  
20 grams NG Blue Hydrangea Type Fragrance Oil  
40 drops Red Da BOMB Soap Dye  
40 drops Blue Da BOMB Soap Dye  
20 drops Ultramarine Violet FUN Soap Colorant  
2 tablespoons Diamond Dust Mica Pigment

### Total Recipe Amounts for Black Salt Portion:

140 grams Black Salt Coarse Ground  
14 grams SLSA  
2 grams NG Blue Hydrangea Type Fragrance Oil

Before we begin, clean and sanitize your work area and all of your packaging materials. We suggest that you wear gloves and protective clothing while preparing this recipe.

**Step 1:** We will prepare this recipe in two separate portions. First, you are going to need a large mixing bowl and a digital scale. Measure out 840 grams of Epsom Salt and place it in the bowl.

**Step 2:** Next, weigh out 84 grams of SLSA to add to the bowl, along with 20 grams of the NG Blue Hydrangea Type fragrance oil. Allow some time for the salt to absorb the fragrance. Stir to mix it in.

**Step 3:** Once it has absorbed some, you can add the colorants. Put in 40 drops of the red soap dye, 40 drops blue soap dye, and 20 drops of the ultramarine violet FUN soap colorant. Mix the colorants together.

**Step 4:** Lastly, add in two tablespoons of the diamond dust mica pigment. Stir this into the mixture and set this bowl aside.

**Step 5:** Now, we can prepare the second portion of the recipe. Get out another mixing bowl and weigh out 140 grams of the Hawaiian Black Salt Coarse Ground.

**Step 6:** Then, add to that 14 grams of SLSA and 2 grams of the NG Blue Hydrangea Type fragrance oil. Take a spoon or spatula to stir the mixture.

**Step 7:** Take your five 8 ounce jars and layer the bath salts starting with about 25 grams of the Epsom Salt. Then, add about 15 grams of black salt on top for a second layer. Alternatively layer them until you have used all of it. Place a lid on each of them.

Your bubble bath salts are now complete! Enjoy!
