Dreama Flameless Air Freshener Recipe

Recipe makes 6- 4 oz. wax melts.

Here's What You Need:
Ingredients

[Aroma Beads](#)
[Dreama Fragrance Oil](#)
[Spectrum Liquid Candle Dye- Green](#)
[Spectrum Liquid Candle Dye- Yellow](#)
[Air Freshener Jars](#)

Other Ingredients & Equipment You'll Need:
Ziploc Bag- Gallon Size
Toothpicks (2)

Here's How It's Done : Directions

Step 1: First, place the 1 pound bag of Aroma Beads in a one gallon bag. By putting the beads in a larger bag, it will make it easier to add the fragrance oil and candle dye.

Step 2: Next, to the gallon Ziploc bag, add 2 ounces of Dreama Fragrance Oil. Using a toothpick, add a small amount of green. Then, using a second toothpick, add a very small amount of the yellow candle dye. Since we want the color to be a little more yellow than green, use a toothpick to add just a little more yellow.

Step 3: Then, seal the bag. Once the bag is completely closed. Shake the bag until the ingredients are evenly mixed.

Step 4: Finally, allow the beads to absorb the Dreama Fragrance Oil. This should take about 24 hours.

Step 5: Fill the six air freshener jars and place the seals and lids on top.

Your Dreama Flameless Air Fresheners are ready to use!
