## Here's How It's Done : Directions

### **Total Recipe Weights:**

264 grams Citric Acid  
528 grams Baking Soda  
84 grams Sodium Cocoyl Isethionate- SCI  
5 grams Rosehips Powder  
18 grams Grapeseed Oil Oil  
5 drops Fun Soap Colorant- Tomato Red  
8 grams Moonlight Tuberose Fragrance Oil  
2 grams Pink Rose Petals

This recipe is best prepared in non-humid climates. Prior to making this recipe, pour some of your witch hazel into your spray bottle in order to have this ready.

**Step 1:** First, weigh out and mix the citric acid, baking soda, and sodium cocoyl isethionate. If there are any clumps, break them up with your hands. Divide the mixture in half. You will need about 438 grams of the powdered mixture in each bowl. To one of the bowls add 5 grams of rose hip powder and mix to fully disperse the powder. Set these bowls aside for now.

**Step 2:** Next, you will need two small bowls. Add the 9 grams of grapeseed oil, and 4 grams of Moonlight Tuberose fragrance oil to one bowl and set it aside for now. To the second bowl add 9 grams grapeseed oil, 4 grams Moonlight Tuberose Fragrance Oil, and 5 drops of tomato red FUN Soap Colorant. Use a spoon to mix these ingredients together.

**Step 3:** Then, use a spoon to add the wet ingredients containing the red colorant to the bowl of dry ingredients containing the rosehips powder. Using your hands, incorporate well. You want to make sure everything is thoroughly mixed.

**Step 4:** Now, spray the red bath bomb mixture with lightly witch hazel and mix. Continue spraying and mixing until you have a crumbly dough consistency.

**Step 5:** Fill each of the six cavities of your silicone heart mold. You will want to fill each mold about halfway. Press down on the bath bomb mixture so it is packed tightly in the mold.

**Step 6:** To the remaining dry ingredient bowl, add the remaining bowl of wet ingredients. Use your hands to thoroughly mix the ingredients.

## Here's How It's Done : Directions

**Step 7:** Begin lightly misting the mixture with witch hazel and mix. Once again, keep mixing and spraying until you have the crumbly dough consistency. Spray your previous red layer with witch hazel. Then, begin putting the white mixture right on top of the red. Top them with rose petals right away. You want to press the rose petals slightly into the top of the white layer before they harden.

**Step 8:** Finally, lightly dust them with 24 K Gold Mica Pigment and Diamond Dust Mica Pigment.

Your Rose Petal Bath Bombs are now ready for use. Enjoy!
