Here's How It's Done : Directions

Total Recipe Weights:

264 grams Baking Soda

132 grams Citric Acid

28 grams Apricot Kernel Oil

5 grams Bentonite Clay

8 grams Fresh Brewed Coffee Original Fragrance Oil

7 grams Coffee Grounds

This recipe is best prepared in non-humid climates. Prior to making this recipe, pour some of your witch hazel into your spray bottle in order to have this ready.

Step 1: Before you begin mixing it is best to prepare your mold. Sprinkle a small amount of coffee grounds into half of each of the molds.

Step 2: Mix together 264 grams of baking soda, 132 grams citric acid, and 5 grams of bentonite clay. Break up any clumps with your hands.

Step 2: Add 28 grams apricot kernel oil and 8 grams of Fresh Brewed Coffee Original Fragrance Oil. Using your hands, mix well.

Step 3: Weigh out 7 grams of coffee grounds and add to the mixture. Again, using your hands, incorporate the coffee grounds into the mixture.

Step 4: Then, spritz your bath bomb mixture very lightly with witch hazel and mix well. You will only need about six sprays.

Step 5: Press the mixture firmly into the molds. Now, spritz both halves of the ornaments with witch hazel and press together. Allow to set up before gently removing from the molds.
