Other Ingredients & Equipment You'll Need:

Witch Hazel (in spray bottle)

Mixing Bowls

Mixing Spoon

Scale

Here's How It's Done : Directions

Total Recipe Amounts:

300 grams Citric Acid
600 grams Baking Soda
5 grams Bentonite Clay Powder
5 grams French Green Clay Powder
18 grams Argan Oil Oil
18 grams Lemongrass Kiwi Cassis Fragrance Oil
5 grams Green Tea C/S
5 grams Green Tea Powder

This recipe is best prepared in non-humid climates.

Clean and sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe. In addition, prepare a spray bottle filled with witch hazel.

Step 1: Before starting, you will need two mixing bowls. The first bowl will be used for your dry ingredients and the second one will be used to mix your wet ingredients.

Step 2: Now we will prepare our dry ingredients. In one mixing bowl, add your citric acid and baking soda. Use your hands to mix the ingredients, breaking up any clumps as you mix. Set this bowl aside while we prepare our wet ingredients.

Step 3: At this time, in your second bowl, weigh out the wet ingredients. You will want to add the Argan Oil oil and Lemongrass Kiwi Cassis Fragrance Oil to this bowl.

Step 4: Then, add your wet ingredients to the dry ingredients. Mix the ingredients together. Again, use your hands to mix. You want to be sure the oils are evenly dispersed throughout the mixture.

Here's How It's Done : Directions

Step 5: Next, divide your bath bomb mixture in half. You will need to add 5 grams of French green clay to the first bowl. To the same bowl, add five grams of green tea powder. Then, to the second bowl, add 5 grams of the cut and sifted green tea and 5 grams of the bentonite clay. Use your hands to mix the contents of each bowl.

Step 6: At this time, we will begin spraying the mixture with witch hazel. Begin with the first bowl. Spray the mixture while mixing the contents with your hands. Keep mixing while spritzing until you have a crumbly dough-like consistency throughout all of the bath bomb dough. Do the same with the second bowl.

Step 7: Finally, pack the mixture into each of your bath bombs molds. Keep in mind each mold set will consist of two differently shaped parts. Fill one half with the mixture that contains the green tea powder and the other half with the mixture containing the cut and sifted green tea.

Step 8: Next, you will need two halves of your mold. You will need one half that contains cut and sifted green tea and one half contains the powder. Then, mist each half lightly with your witch hazel. Lastly, press the two halves together. Continue filling the remaining bath bomb molds and pressing them together.

Step 9: Give your bath fizzies enough time to setup. Your bath bombs can stay in the mold, making packaging a breeze. Another option is to remove them from the molds and package them using another method.

Use one of your green tea bath bombs in the bathtub by simply placing it in your water.
