Step 1: Prepare your lye solution. Allow the lye solution to cool to room temperature.

Step 2: While you are waiting for your lye solution to cool, prepare your soaping oils. Once your oils are melted, allow them cool to room temperature.

Step 3: While you are waiting for your oils and lye solution to cool, prepare the colorants.

Step 4: You will need 4 bowls for your colors. To save time add your drops of colorant while you are waiting for your oils and lye solution to cool.

Step 5: Add 4 drops of pink colorant to one of your 4 bowls, add 15 drops of neon blue colorant to a second bowl. Add 4 drops of neon yellow colorant to your next bowl and finally, 4 drops of neon green in your final bowl. Set aside for now.

Here's How It's Done : Directions

Step 6: When both the soaping oils and the lye solution are at room temperature, combine them. Then, stick blend the soap batter to emulsify. Next, add the Heaven Fragrance Oil. Once again, stick blend your soap batter to incorporate the scent.

Step 7: Now, separate your soap batter. At this time, you will need your four mixing bowls. Separate the soap batter. Add approximately 175 grams of soap batter to each bowl.

Step 8: With the leftover soap batter, add the titanium dioxide mixture. Stick blend to incorporate the colorant. Set aside your white batter.

Step 9: Going down the line of colors pink-blue-yellow-green, stick blend the contents of each bowl to incorporate the colorant.

Step 10: Next, grab your loaf mold. You will begin by pouring the pink soap batter down the center of the loaf mold. Next, pour the white batter down the center on top of the pink batter. Repeat with blue batter, then white again. Pour the yellow, then white again. Green batter next and then white. Continue until all soap batter is used.

Step 11: For enhanced swirls, use a wooden skewer and insert it into soap loaf. Create figure 8 patterns across the soap.

Step 12: After 48 hours, remove the soap from the mold. When ready, cut the soap into slices. Allow them to cure before using.
