[24/410 White Fine Mist Sprayer](#)

Other Ingredients & Equipment You'll Need:

Mixing Bowl
Mixing Spoon
Rubbing Alcohol
Knife
Cutting Board
Microwave
Toothpick
Powdered Sugar

Here's How It's Done : Directions

Total Recipe Amounts:

270 grams Mango Butter Melt and Pour Soap
270 grams Diamond Clear Melt and Pour Soap
26 grams Lemon Squares Fragrance Oil
2 drops Yelp Yellow FUN Soap Colorant
1 drop Neon Yellow FUN Soap Colorant
3 drops Yellow Oxide FUN Soap Colorant
1 toothpick Brown Oxide FUN Soap Colorant

Clean & Sanitize your work area and all of your packaging materials. Also, prepare a bottle of rubbing alcohol and place a sprayer on top. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe.

Step 1: Prepare your first layer. First, weigh out 270 grams of the clear melt and pour soap. Melt the m&p soap base in the microwave until it is in a liquid state, heating it in 30 second bursts.

Step 2: Now, add 13 grams of Lemon Squares Fragrance Oil. Mix to incorporate the lemon fragrance oils. Then, add 2 drops of the Yelp Yellow colorant and 1 drop of the yellow oxide soap colorant. Mix to disperse the color.

Step 3: Next, pour the melted soap base into the mold. Each cavity should be about halfway full. You will have enough soap to fill all 24 cavities. Once you have filled all 24 cavities halfway, spritz the soap with rubbing alcohol to release any air bubbles. Allow this layer to setup before moving to the next step.

Step 4: Prepare the second layer. You will need 270 grams of Mango Butter Melt and Pour Soap. Again, melt it in the microwave in 30-second intervals.

Step 5: Once you have melted your base, add 13 grams of Lemon Squares Fragrance Oil. Then, use a mixing spoon to incorporate the lemon scent. Finally, add your soap colorant. You will need to add 2 drops of yellow oxide colorant, 1 drop of the neon yellow, and use a toothpick to add a tiny bit of brown oxide. Stir to evenly mix the yellow soap dye.

Step 6: Lastly, we will pour our second layer. However, prior to pouring, spray the previous layer with rubbing alcohol. This is done so that the layers will adhere to each other. So, pour your second layer directly on top of the first layer. Then, spray the soap once again with rubbing alcohol to release any air bubbles.

Here's How It's Done : Directions

Step 7: Allow the lemon squares soap to setup. Then, remove them from the brownie bites mold.

Step 8: Now, with the clear mp soap side facing up, sprinkle each soap with powdered sugar.

Your lemon squares melt and pour soaps are now ready to use! Enjoy!
