Here's How It's Done : Directions

Total Recipe Weights:

- 112 grams French Green Clay
- 112 grams Bentonite Clay
- 32 grams Spirulina Powder
- 32 grams Alfalfa Powder
- 32 grams Spinach Powder
- 24 drops Vitamin E Oil
- 16 drops Sweet Fennel Essential Oil
- 16 drops Lavender 40/42 Essential Oil
- 96 grams Vegetable Glycerin

Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe.

Step 1: First, mix the powdered ingredients. In a small bowl, mix 112 grams French Green Clay, 112 grams Bentonite Clay, 32 grams Spirulina Powder, 32 grams Alfalfa Powder, and 32 grams Spinach Powder. Mix the ingredients well.

Step 2: Then, add 16 drops of Sweet Fennel Essential Oil, 16 drops Lavender 40/42 Essential Oil, and 24 drops of Vitamin E oil. Mix well to fully incorporate the oils.

Step 3: Now, place the mixture in the jars. Then, place a lid on each jar. You will use about one tablespoon of this powder for each facial mask.

Step 4: Next, to use your mask you will need to mix the powder with vegetable glycerin and water. We recommend mixing it right as you use it. This way you do not need to add a preservative. In a small bowl, add one tablespoon of the powder mixture along with 1/2 teaspoon of vegetable glycerin, and 2 tablespoons of distilled water. Mix well.

Here's How It's Done : Directions

Step 5: Finally, spread the face mask mixture in a thin layer on your face. Allow the mixture to harden on your face before rinsing off.

Step 6: For those planning to sell these facial masks, these masks are conveniently packaged in two ounce jars for that very reason. Each two ounce jar will make about 4 face masks. You will also need to fill 8 one ounces clear jar with about 12 grams of vegetable glycerin. Then, place a black smooth disc lid 20/410 on top.

We hope that you enjoy your Lucky Leprechaun Face Mask!
