

## Pink Salt Bubble Bath Recipe

*Recipe makes approximately 2 - 8 ounce jars.*

Here's What You Need:  
Ingredients

[Himalayan Pink Salt Coarse Ground](#)  
[Epsom Salt](#)  
[Sodium Lauryl Sulfoacetate- SLSA](#)  
[Hyacinth Fragrance Oil](#)  
[8 oz. Clear PET JAR](#)  
[White Straight Smooth Lid 70/400](#)

**Other Ingredients & Equipment You'll Need:**

Mixing Bowls  
Mixing Spoons  
Scale

## Here's How It's Done : Directions

### **Total Recipe Amounts:**

300 grams Himalayan Pink Salt

275 grams Epsom Salt

57 grams SLSA

14 grams Hyacinth Fragrance Oil

Before beginning, clean and sanitize your work area and all of your packaging materials. It is suggested that you wear gloves and protective clothing while preparing this recipe.

**Step 1:** For this layered bath salts recipe, you will need two medium sized mixing bowls. We will prepare one bowl at a time. To the first bowl, weigh out 300 grams of the Himalayan Pink Salts Coarse Ground.

**Step 2:** Next, add in 7 grams of the Hyacinth Fragrance Oil. Stir to mix the fragrance in. Allow the salts time to absorb it some. While it is sitting, prepare the second bowl.

**Step 3:** For the other bowl, measure out and add in 275 grams of Epsom Salt.

**Step 3:** Add in 7 grams of the Hyacinth Fragrance Oil to this bowl as well. Stir to incorporate the fragrance and allow it to sit for a little bit.

**Step 4:** Then, measure 57 grams of the SLSA and add it only to the bowl containing the Epsom Salt mixture. Use a mixing spoon to fully incorporate.

**Step 5:** Finally, get your eight ounce jars out. Using about half of the white mixture, spoon  $\frac{1}{4}$  into the bottom of each jar. Then, spoon the entire pink salt mixture on top of the white portion, placing half of the mixture in each of the two jars. Top the jars off with the remaining half of the white salt mixture. Place a lid on the jars.

Your pink salt bubble bath recipe is now finished! We hope you enjoy them!
