Clean and sanitize your work area and all of your packaging materials. Also, prepare a bottle of rubbing alcohol and place a sprayer on top. In addition, we suggest that you wear gloves, protective clothing, and a hair net while preparing this recipe.

**Step 1:** Prepare your first layer. This is the graham cracker crust layer. Weigh out cocoa butter melt and pour soap base. Next, melt your white soap base in your microwave in 30 second intervals until it is in a liquid state.

**Step 2:** Next, add Nature's Garden's Pistachio Pudding Cake Fragrance Oil and Vanilla White Color Stabilizer. Then, mix to incorporate the fragrance oil.

**Step 3:** Now, add your FUN Soap Colorants. Mix to disperse the colorant. Finally, pour the melted soap base into each cavity of the basic square mold. Then, spray the soap with rubbing alcohol. Allow the soap to setup before moving on.

**Step 4:** Prepare your white soap layer. Weigh out and melt 93 grams of cocoa butter melt and pour soap base. Melt it in the microwave in 30-second intervals.

**Step 5:** Once the soap is melted add the Pistachio Pudding Cake Fragrance Oil and Vanilla White Color Stabilizer. Stir the white soap base to incorporate all of the ingredients.

## Here's How It's Done : Directions

**Step 6:** Once your scent is added, spray your graham cracker layer with rubbing alcohol. Then, pour your white layer directly on top of it. Each cavity will have about one ounce of soap. Once the soap is poured, spray the white soap with rubbing alcohol to release the air bubbles. Allow this layer to setup.

**Step 7:** Next, we will prepare the green layer. So, weigh out and melt your clear soap base. Then, add your Pistachio Pudding Cake Fragrance Oil, Vanilla White Color Stabilizer, and green soap colorant. Finally, stir to incorporate the ingredients.

**Step 8:** Before you pour your green layer, spray the previous white layer of soap with rubbing alcohol. Then, pour the green layer into each cavity. Each cavity should have about one ounce of green soap. Spray your green layer with rubbing alcohol and let it setup before moving on.

**Step 9:** At this time, we will prepare our whipped soap. So, weigh out your whipped soap base and add the fragrance oil and vanilla white. Use a hand mixer to fluff the soap to a frosting like consistency.

**Step 10:** In a separate microwave safe bowl, melt the cocoa butter melt and pour soap. Once you have melted your cocoa butter soap, add it to the bowl containing the whipped soap base. Then, once again, use your hand mixer to mix the base to a frosting consistency.

**Step 11:** Quickly, add the whipped soap to the tops of each soap. Since the base will setup fast, you will need to top the soaps right away. Finally, sprinkle the whipped soap lightly with orange peel.

**Step 12:** Once your soap has setup, remove it from the molds.

We hope that you enjoy this pistachio melt and pour soap recipe!
