

Pumpkin Face Mask Recipe

Recipe makes approximately 7- 2 oz. jars of face mask.

Here's What You Need:
Ingredients

[Pumpkin Seed Powder](#)
[Rhassoul Clay Powder](#)
[Vanilla Powder](#)
[Vitamin E Oil](#)
[Vegetable Glycerin](#)
[Disposable Pipettes](#)
[2 oz Clear PET Jar](#)
[White Straight Lids 48/400](#)
[1 oz. Clear Bullet Bottles](#)
[White Ribbed Lids 20/410](#)

Other Ingredients & Equipment You'll Need:

Mixing Bowls
Scale
Mixing Spoons

Here's How It's Done : Directions

Total Recipe Weights:

- 64 grams Pumpkin Seed Powder
- 32 grams Vanilla Powder
- 224 grams Rhassoul Clay Powder
- 24 drops Vitamin E Oil
- 84 grams Vegetable Glycerin (12 grams per bottle)

Step 1: First, you will need to mix your powdered ingredients. So, in a medium sized bowl, weigh out 64 grams of your pumpkin seed powder and 32 grams vanilla powder using your scale.

Step 2: To the same bowl, add 224 grams of the rhassoul clay powder. Mix the ingredients ensuring that everything is completely and evenly mixed.

Step 3: Now, you will need to add the vitamin E oil. So, using a disposable pipette, add 24 drops of vitamin E oil.

Step 4: Mix everything together completely.

Step 5: Place the powder into 7 of the 2 oz. jars. Place a lid on each jar.

Step 6: Next, we will begin preparing our vegetable glycerin. Place 12 grams of vegetable glycerin in seven of your one ounce bottles. Put a lid on each jar.

Step 7: To use your pumpkin face mask you will need a small bowl. To this bowl, add one tablespoon of powder, two tablespoons of water, and about 1/2 teaspoon of vegetable glycerin. Mix well. Simply, apply a thin layer of the mask to your face. Allow the pumpkin mask to harden. Then, rinse with water.

Note: We chose to package the powder and glycerin separately. By creating the mask without the water you will not need to add a preservative. This will allow you to also create a quick product for your customers. Each two ounce jar will create approximately 4 facial masks.

We hope that you enjoy our pumpkin face mask recipe!
