[Castor Oil](#)  
[Grapeseed Oil](#)  
[FUN Soap Colorant Tomato Red](#)  
[FUN Soap Colorant Neon Green](#)  
[FUN Soap Colorant Kelly Green](#)  
[Titanium Dioxide Oil Dispersible](#)  
[Sodium Lactate](#)  
[Safety Gloves](#)  
[Safety Mask](#)  
[Safety Glasses](#)  
[Natures Garden Apron](#)  
[Thermometer](#)  
[Flexible Silicone Mat](#)

### Other Ingredients & Equipment You'll Need:

Distilled Water  
Mixing Bowls  
Mixing Spoons  
Rubber Spatula  
Scale  
Stick Blender  
Vinegar  
Decorating Bag  
Round Decorating Tip

## Here's How It's Done : Directions

### **Total Recipe Weights for CP Soap:**

344 grams Distilled Water  
126 grams Lye  
18 grams Sodium Lactate  
(added to cooled lye solution)

136 grams Palm Oil  
181 grams Mango Butter  
226 grams Coconut Oil 76  
181 grams Sunflower Oil  
90 grams Castor Oil  
90 grams Grapeseed Oil  
45 grams Reindeer Poo Fragrance Oil  
45 grams Vanilla White Color Stabilizer

### **Colorants for Green Soap:**

4 grams FUN Soap Colorant Neon Green  
2 grams FUN Soap Colorant Kelly Green

### **Colorant For White Soap:**

7 grams Titanium Dioxide  
Mixed with a small amount of soaping oils

### **Colorant For Red Soap:**

4 grams FUN Soap Colorant Tomato Red

Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, a face mask, and safety glasses.

**Step 1:** First, prepare your lye solution. Let the lye solution to cool to room temperature. Finally, add the sodium lactate to the cooled lye solution.

**Step 2:** While you are waiting for your lye solution to cool, you can prepare your soaping oils. Once you have melted your soaping oils, allow them cool to room temperature.

**Step 3:** While you are waiting for both the oils and lye solution to cool, prepare the red, white and green colorants.

**Step 4:** When both the soaping oils and the lye solution are at room temperature, combine them. Then, use a stick blender to emulsify them. Then, add the Reindeer Poo Fragrance Oil and Vanilla White. Again, stick blend.

## Here's How It's Done : Directions

**Step 5:** Next, divide the soap batter into three equal portions. To the first bowl, add the titanium dioxide mixture you prepared. Once again, stick blend and set this bowl aside for the moment. To the second bowl, add the green colorant, and stick blend. Finally, to the third bowl, add the red colorant and stick blend to incorporate the colorant.

**Step 6:** Now, starting with the red soap batter drop several "plops" in a clockwise manner in an empty bowl. Do this until all of the red batter is gone. Then, repeat the same action with the green batter, aiming for different areas in the "clock ". Finally, repeat this step using the white soap batter.

**Step 7:** Next, place a spatula into the bowl and move in a circular motion throughout the bowl to create swirls.

**Step 8:** Once your soap batter is at a thickened frosting-like consistency, add it to a decorating bag with a round decorating tip inserted.

**Step 9:** Finally, on the silicone mat, pipe the soap in a circular motion as if you are decorating a cupcake.

**Step 10:** Allow the soap to cure before using or selling it.
