

Sea Salt Orchid Soap Recipe

Recipe makes approximately 3 pounds of soap.

Here's What You Need:
Ingredients

[Diamond Clear Melt and Pour Soap](#)
[Yogurt Melt and Pour Soap Base](#)
[Whipped Soap Base](#)
[Sea Salt and Orchid Fragrance Oil](#)
[Vegetable Glycerin](#)
[Rhassoul Clay Powder](#)
[Neon Pink FUN Soap Colorant](#)
[Deep Purple FUN Soap Colorant](#)
[Yellow Oxide FUN Soap Colorant](#)
[Da Bomb Soap Dye- Blue](#)
[24K Gold Mica Pigment](#)
[Embed Mold- Small Shells](#)
[Mitre Box](#)
[Cutter for Mitre Box](#)

Other Ingredients & Equipment You'll Need:

Mixing Bowls
Mixing Spoons
Electric Hand Mixer
Knife
Scale
Loaf Mold
Rubbing Alcohol
Toothpick
Paint Brush
1/2" Balls/Berries Mold (www.flexiblemolds.com)

Here's How It's Done : Directions

Total Recipe Amounts for Sand Layer:

300 grams Yogurt Melt and Pour Soap Base
15 grams Sea Salt and Orchid Fragrance Oil
9 grams Rhassoul Clay
13 grams Vegetable Glycerin

Total Recipe Amounts for Water Layer:

600 grams Diamond Clear Melt and Pour Soap
30 grams Sea Salt and Orchid Fragrance Oil
2 drops Da Bomb Soap Dye- Blue

Total Recipe Amounts for Sea Shells:

36 grams Yogurt Melt and Pour Soap
1 gram Sea Salt and Orchid Fragrance Oil
1 drop Neon Pink FUN Soap Colorant
1 drop Deep Purple FUN Soap Colorant

Total Recipe Amounts for Whipped Topping:

200 grams Whipped Soap Base
200 grams Diamond Clear Melt and Pour Soap
20 grams Vegetable Glycerin
20 grams Rainbow Fragrance Oil

Total Recipe Amounts for Sea Shells:

84 grams Yogurt Melt and Pour Soap
4 grams Sea Salt and Orchid Fragrance Oil
1 toothpick Yellow Oxide FUN Soap Colorant
24K Gold Mica Pigment (less than 1 gram)

Prior to starting, prepare a bottle of rubbing alcohol. In addition, clean and sanitize your work area along with all utensils and materials you will be using. Also, it is suggested that you wear an apron, gloves, and a hair net when preparing this recipe.

Step 1: First, we are going to prepare the sand layer. So, you will need to prepare the colorant. In a small bowl, weigh out the rhassoul clay powder. Mix it with the vegetable glycerin until it is smooth and clump free.

Step 2: Now, melt the diamond clear soap. Once melted, add the colorant you prepared and the Sea Salt Orchid Fragrance Oil. Stir to blend the ingredients together completely.

Step 3: Pour the sand colored soap into the loaf mold. Spray the soap with alcohol to release any air bubbles. Allow this layer to setup.

Step 4: Next, while you are waiting, prepare your shells. Weigh out and melt the melt and pour soap base. Once melted, add the fragrance oil and yellow oxide colorant. Stir.

Step 5: Pour the melted soap into the shell mold. You will need a total of 12 shells. Once you have poured the shells, spray the soap with alcohol to release any air bubbles. Allow these to setup before removing them from the mold. Finally, using a paint brush, dust each shell with gold mica.

Here's How It's Done : Directions

Step 6: Using the berries mold, create 6 pink pearls. Melt the yogurt melt and pour soap base. Once melted, add the colorants and fragrance oil. Stir and pour the melted soap into 6 cavities of the berries mold. Allow these to setup. Finally, remove them from the mold. Set aside, for now.

Step 7: Prepare the water layer. Melt the clear soap base. Add the fragrance oil and Da Bomb Soap Dye. Stir to blend the ingredients together..

Step 8: Before pouring the water layer, spray the sand layer with alcohol. This will ensure that the two layers adhere to each other. Pour the blue soap directly on top of the sand layer. Once again, spray with alcohol to remove any air bubbles. Then, allow the blue soap to setup completely.

Step 9: Prepare the whipped soap. First, in a deep mixing bowl, weigh out the whipped soap base, vegetable glycerin, and fragrance oil. Using the hand mixer, whip the soap and blend the ingredients until it reaches a whipped consistency. Set this aside, we will come back to it.

Step 10: Weigh out and melt the clear soap base for the whipped soap. Once melted, add it to the bowl containing the whipped soap. Once again, use the hand mixer to whip the soap until it reaches a whipped consistency.

Step 11: Now, you will need to move quickly to top your soap. So, spray your blue soap with alcohol. Place the whipped soap on top of the loaf.

Step 12: Finally, place your shells and pearls. Position 2 of the shells like oysters and place one of the balls in the center. Use the whipped soap to hold them in place. Place the remaining shells and pearls across the loaf, creating 6 oysters with a pearl in each one.

Step 13: Once the soap has setup, remove it from the mold. Then, slice the soap using the mitre and cutter.
