

Shimmering Bronzing Lotion Recipe

Recipe makes approximately 7 bottles of lotion.

Here's What You Need:
Ingredients

[Goat's Milk Multi Base Lotion](#)
[NG Copper Hue Suntan Lotion Fragrance Oil](#)
[Organic Cocoa Powder](#)
[24k Gold Mica Pigment](#)
[8 oz Boston Round Bottle](#)
[White Lotion Pump 24/410](#)

Other Ingredients & Equipment You'll Need:
Mixing Bowls
Mixing Spoon
Distilled Water
Gallon Size Ziploc Bag
Stick Blender

Here's How It's Done : Directions

Total Recipe Amounts:

- 16 ounces Goat's Milk Multi-Base Lotion
- 48 ounces Distilled Water
- 1.92 ounces NG Copper Hue Suntan Lotion Fragrance Oil
- 5 tsp Organic Cocoa Powder
- 3 tsp 24K Gold Mica Pigment

Clean and sanitize your workstation and all of your utensil. It is suggested that you wear gloves, an apron, gloves, a face mask, and a hair net while preparing this recipe.

Step 1: First, you will need to prepare your water. Weigh out your distilled water. Make sure to include extra water so that you have at least 48 ounces for the recipe. Now, heat the water to at least 185 degrees Fahrenheit. Once the water hits this temperature, hold it there for at least 5 minutes. Then, remove the water from the heat source and weigh out the 48 ounces.

Step 2: Next, allow your water to cool. Your water temperature should be around 100 degrees Fahrenheit when working with the multi-bases. It is important that it is not too hot. If the water is too hot, it will break down the base.

Step 3: Now, add your goat's milk lotion base. Then, use a stick blender to mix the ingredients together.

Step 4: Finally, to your lotion, add the NG Copper Hue Suntan Lotion Fragrance Oil, organic cocoa powder, and 24K gold mica. Once again, mix the lotion to incorporate all of the ingredients.

Step 5: Place the lotion in your Ziploc bag. Then, cut the corner of the bag. This will allow you to easily, neatly, and quickly fill your bottles. Fill your bottles with lotion by placing the cut corner over the opening of the bottle and squeezing your bag. Once you have filled the bottles, place a pump on top.

Your shimmering bronzing lotion is now ready to use!
