Other Ingredients & Equipment You'll Need:
Mixing Bowls
Mixing Spoon
Parchment Paper or Silicone Baking Mat
Scale

Here's How It's Done : Directions

Total Recipe Amounts:

604 grams Baking Soda
515 grams Sodium Cocoyl Isethionate
266 grams Cream of Tartar
89 grams Cornstarch
249 grams Vegetable Glycerin
18 grams Argan Oil
18 grams Jack Frost Fragrance Oil
18 grams Polysorbate 80

Black Bubble Bar Dough for Hat and Buttons:

120 grams Bubble Bar Dough
3 drops Black Oxide FUN Soap Colorant

Orange Bubble Bar Dough for Carrot Nose:

6 grams Bubble Bar Dough
2 drops Da Bomb Soap Dye Yellow
2 drops Da Bomb Soap Dye Red

Clean and sanitize your workstation and all of your utensils. It is suggested that you wear gloves, an apron, a face mask, and a hair net while preparing this recipe.

Step 1: First, we will prepare our dry ingredients. In a large mixing bowl, add your baking soda, sodium cocoyl isethionate, cream of tartar, and cornstarch. Mix well, using your hands to break up any clumps.

Step 2: Next, in a separate bowl, weigh out and mix your wet ingredients. Blend the vegetable glycerin, argan oil, polysorbate 80, and Jack Frost Fragrance Oil.

Step 3: Now, add your wet ingredients to the bowl containing the dry ingredients. Use your hands to mix the ingredients together. Continue to mix until you have a dough consistency. Note: If your dough is too crumbly, you can add a bit more vegetable glycerin. However, be careful not to add too much or your dough will become too wet and will not set up properly.

Step 4: Separate the bubble bar dough. In a small bowl, add 6 grams of the dough. Set this aside, we will come back to it later. In a second bowl, weigh out 120 grams of the bubble bar dough. Set this bowl aside as well.

Step 5: Begin preparing your snowmen. We will use the remaining dough for the snowmen. So prepare six snowmen. You will need to create 6 large balls of dough, 6 medium, and 6 small. Then, build 6 snowmen.

Step 6: Now, you will need the 6 grams of dough you set aside. To this bowl, add 2 drops of yellow soap dye and 2 drops of red soap dye. Mix until everything is evenly and fully blended. Create 6 carrot shapes. Place a carrot on each snowman.

Here's How It's Done : Directions

Step 7: Prepare the black bubble bar dough. You will need the bowl containing the 120 grams of dough. To this bowl, add 3 drops of the black oxide FUN Soap Colorant. Use your hands to mix the dough and color together.

Step 8: To each snowman, add 3 buttons on the center snowball and 2 eyes on the small snowball. Then, create 6 hat shapes. Add the hats to the top of each snowman's head.

Step 9: Now, simply let your bubble bars set up, completely hardening. It took our bubble bars approximately 48-72 hours to set up completely. However, it can take longer depending on the climate of your environment.

Your snowman bubble bars are now ready to use! To use your snowman bubble bars crumble the bubble bar under your warm running bath water.
