

Swirled Melt and Pour Soap Recipe

Recipe makes approximately 2 pounds of soap.

Here's What You Need:
Ingredients

[Cocoa Butter Melt and Pour Soap](#)
[Chocolate Covered Strawberries Fragrance Oil](#)
[Organic Cocoa Powder](#)
[Rose Clay Powder](#)
[Kaolin Clay Powder](#)
[Vegetable Glycerin](#)
[Silicone Loaf Soap Mold](#)
[FUN Soap Colorant Neon Pink](#)
[Mitre Box](#)
[Cutter for Mitre Box](#)
[Natures Garden Soap Apron](#)
[4 oz Clear Bullet Bottle](#)
[Black Fine Mist Sprayer 20/410](#)
[Vanilla White Color Stabilizer](#)

Other Ingredients & Equipment You'll Need:

Mixing Bowls
Microwave
Scale
Mixing Spoons
Rubbing Alcohol
Cutting Board
Knife
Disposable Cups (3)

Here's How It's Done : Directions

Total Recipe Weight for Soap:

904 grams of Cocoa Butter Soap
45 grams of Chocolate Covered Strawberries Fragrance Oil
45 grams Vanilla White Color Stabilizer

For the White Soap Portion:

5 grams of Kaolin Clay Powder
10 grams of Vegetable Glycerin

For the Pink Soap Portion:

7 grams of Rose Clay Powder
10 drops of FUN Soap Colorant Neon Pink
15 grams of Vegetable Glycerin

For the Brown Soap Portion:

7 grams of Cocoa Powder
16 grams of Vegetable Glycerin

Step 1: Line up your 3 disposable cups. Assign each cup one of the following colors: Pink, white, and brown. To the white cup, add 5 grams of Kaolin Clay Powder and 10 grams of Vegetable Glycerin. To the pink cup, add the 7 grams of Rose Clay, 15 grams of Vegetable Glycerin, and 10 drops of the neon pink soap colorant. To the brown cup, add the cocoa powder and 16 grams of Vegetable Glycerin. Stir the contents of each cup separately to make a paste. Set them aside, you will need them in another step.

Step 2: Using your microwave safe glass container, weigh out and melt 904 grams of Natures Garden Cocoa Butter Soap Base. You will want to melt the soap in 30 seconds increments, stirring in between each. Keep microwaving the soap until it is all in a liquid state.

Step 3: Then, add the 45 grams of your fragrance oil. In addition, add 45 grams of Vanilla White Color Stabilizer. Stir well to incorporate the ingredients.

Step 4: Now that all of your melted soap is scented, carefully take the soap over to the cups containing the paste. Next, add about 301 grams of scented soap to each one. Individually, stir each cup.

Step 5: Place your silicone loaf mold in front of you.

Step 6: Select two color cups. Starting with these colors begin to pour the soap at the same time (using both hands). Pour the soap amount you want, then switch colors. Continue this until all of the soap has been used. You will need to use 2 of the 4 loaf cavities for this swirled soap recipe.

Step 7: Lastly, spritz the soap with alcohol to remove any bubbles. Allow the loaves to fully set up before removing them from the mold. Once setup, use the mitre box and cutter to slice your soap.

Your Swirled Melt and Pour Soap is now ready to use! Enjoy!
