

Turmeric Face Mask Recipe

Recipe makes approximately 4 - 4 ounce jars.

Here's What You Need:
Ingredients

[Turmeric Ground](#)

[Bentonite Clay Powder](#)

[VITAMIN E OIL \(Tocopherol T-50\)](#)

[Natural](#)

[VEGETABLE GLYCERIN](#)

[Disposable Pipettes](#)

[1 oz. Crystal Clear PET Bullet](#)

[Bottles](#)

[White Ribbed Lids 20/410](#)

[4 oz. Clear PET JAR](#)

[White Straight Smooth Lid 58/400](#)

Other Ingredients & Equipment You'll Need:

Mixing Bowls

Mixing Spoons

Scale

Here's How It's Done : Directions

Total Recipe Weights:

96 grams Turmeric Powder
224 grams Bentonite Clay Powder
24 drops Vitamin E Oil
48 grams Vegetable Glycerin

Step 1: In a medium sized bowl, begin by weighing out 96 grams of your turmeric powder using your scale.

Step 2: Next, to the same bowl, add 224 grams of your bentonite clay powder. Fully mix the ingredients making sure everything is evenly dispersed.

Step 3: Now, use a disposable pipette to add 24 drops of vitamin e oil.

Step 4: Finally, use a spoon or spatula to mix the ingredients together.

Step 5: The powdered portion is now finished. Go ahead and scoop the powder into your clear four ounce jars. Place a lid on each jar.

Step 6: Next, add 12 grams of vegetable glycerin to each of your four 1 oz. bullet bottles. Place a ribbed lid on each bottle.

Step 7: To use your turmeric facial mask you will need a small mixing bowl. Add one tablespoon of powder, two tablespoons of water, and about 1/2 teaspoon of vegetable glycerin. Mix well. Note: We chose to package the powder and glycerin separately. By creating the mask without the water you will not need to add a preservative. This will allow you to prepare a quick product for your customers. Each four ounce jar will create approximately 4 facial masks.

Step 8: Now, apply a thin layer to your face. Allow the mask to harden. Then, rinse with warm water.

We hope that you enjoy our turmeric face mask recipe!
